IT HAS LONG BEEN ACKNOWLEDGED...

that the mind has a huge impact on people's success in sport, but in the business world this is largely an untapped area...until now.

There is a small band of pioneering business leaders who are realizing the power of understanding the human mind in order to access a more effortless and effective way of running a business and life.

Martin and Rena will help you gain access.

THIS 3-DAY IMMERSIVE EXPERIENCE...

is designed to transform how you think about your life and work; to cause breakthroughs in all areas.

We'll provide you a new understanding of how your mind actually works. As your understanding deepens, it will blow your mind (excuse the pun).

You'll develop a new awareness. You will see how thought works, where feelings comes from, the power of quality of mind, and how to access your deeper wisdom more often. Most importantly you'll see how to live a more successful, more connected life with more peace of mind.

THE FEE IS... £2,320 +VAT

We include an initial intake conversation, 3-day immersion including lunch, materials used and a follow-up conversation after four weeks.

THE LOGISTICS ARE...

This Retreat will be limited to a small group of executives who will attend from a range of different organisations. There will be a high facilitator-to-participant ratio, ensuring each participant gets exactly what he or she needs from the Retreat. The experience will be extremely high quality and personal.

The Retreat will be held at Avington Park, Hampshire.
